

Continuing Education Units

You can choose from more than 90 quality sessions and receive continuing education units (CEUs). These CEU sessions will cover the latest research, treatment approaches, and techniques.

ACNM CEUs are accepted for the ACNM Continuing Competency Assessment (CCA) program, the America Midwifery Certification Board (AMCB) Certification Maintenance Program (CMP) and the National Certification Corporation (NCC) for Obstetric, Gynecologic and Neonatal Nursing. Other professional groups may recognize ACNM CEUs as well; non-CNMs/CMs should check with their respective certifying agencies.
