

Mark W. Grinstaff, PhD

Associate Professor of Biomedical Engineering and Chemistry
Metcalf Center for Science and Engineering

Mark Grinstaff is an Associate Professor of Biomedical Engineering and Chemistry at Boston University. Mark received his Ph.D. from the University of Illinois and was an NIH postdoctoral fellow at Caltech. He has published over 65 manuscripts and his work has appeared in major journals such as Science, Nature, PNAS, JACS, J. Biomed. Mat. Res., and Cornea. Mark's awards include the ACS Nobel Laureate Signature Award, NSF Career Award, Pew Scholar in the Biomedical Sciences, Camille Dreyfus Teacher-Scholar, and an Alfred P. Sloan Research Fellowship. His current research activities involve the synthesis of new macromolecules, tissue engineering, and nanotechnology.
